

RoHS Declaration of Conformity

TOELLNER Electronic Instrumente GmbH works constantly on the improvement of its products, also with regard to the use of environmentally hazardous substances and compliance with the environmental protection regulations and laws.

TOELLNER Electronic Instrumente GmbH confirms that all products supplied and marketed comply with Directive 2011/65/EU (RoHS 2) of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment and also with the Commission Delegated Directive (EU) 2015/863 of 31 March 2015 amending annex II to Directive 2011/65/EU.

The limits for the following substances in homogeneous material are met:

- lead (Pb) with a maximum of 0.1 % by weight
- cadmium (Cd) with a maximum of 0.01 % by weight
- hexavalent chromium (Cr(VI)) with a maximum of 0.1 % by weight
- mercury (Hg) with a maximum of 0.1 % by weight
- polybrominated biphenyls (PBB) with a maximum of 0.1 % by weight
- polybrominated diphenyl ethers (PBDE) with a maximum of 0.1 % by weight
- Bis(2-ethylhexyl) phthalate (DEHP) with a maximum of 0.1 % by weight
- Butyl benzyl phthalate (BBP) with a maximum of 0.1 % by weight
- Dibutyl phthalate (DBP) with a maximum of 0.1 % by weight
- Diisobutyl phthalate (DIBP) with a maximum of 0.1 % by weight

In our instruments only very few parts are installed which have a higher lead content as per the exemptions established in Annex III of Directive 2011/65/EU. These are:

- Components made from steel alloys with a maximum lead content of 0.35 % (exemption 6a, currently without expiry date),
- Components made from copper alloys with a maximum lead content of 4 % (exemption 6c, currently without expiry date).
